FOR IMMEDIATE RELEASE

Green Generation Solutions, LLC Selects Matthew J. Smith as Vice President, Solutions

Matthew J. Smith joins Green Generation Solutions, LLC as Vice President, Solutions. In this position, he will oversee engineering and implementation of Green Gen's proposed solutions.

Smith has 17 years of experience in the mechanical trades and five years as a service and installation technician, ten of which he spent as a senior project manager overseeing mechanical, plumbing, and piping engineering projects from conception to completion.

"We conducted a wide search to identify the best person we could find to help execute our solutions, and it is no surprise to us that Matt fits that description in every way," said Bradford H. Dockser, Chief Executive Officer. "Matt's track record of success is well documented, and we are confident that he is the right choice to help lead a very talented solutions team forward."

Smith said, "I am excited to join Green Generation Solutions. Green Gen has provided me with an outstanding opportunity to work with an energy efficiency solutions group that is unrivaled, one that is a true innovator and has continued to set the highest standards for our industry. I am pleased to accept this position and commit my full attention and resources to making Green Gen the best it can be."

"Matt is committed to using his background and building systems experience to provide solutions implementation expertise," said Dockser.

Matt previously worked at Pro Air for three years and at W.E. Bowers & Associates for ten years as Senior Project Manager where he oversaw mechanical, plumbing, and piping engineering projects from conception to completion. His responsibilities were to ensure that projects were implemented effectively within cost, schedule, quality, and safety parameters; to develop solutions to mechanical, plumbing, and/or piping problems; and manage implementation of those solutions to keep projects on-time and on budget.

Matt graduated from the U.A. Mechanical Trade School Apprenticeship Program. He also holds numerous certifications, including Calvert Career Center Heating A/C and Plumbing; Maryland and DC journeyman's license; CFC Certified; Medical Gas; OSHA; and he is an ASHRAE Associate Member.

ABOUT GREEN GENERATION SOLUTIONS, LLC

Green Generation Solutions, LLC optimizes client profitability by engineering and implementing customized, enterprise-wide energy solutions. We make every decision a smarter financial decision.

Every business can be more profitable by making energy decisions backed by comprehensive analysis, collaborative planning, and ongoing measurement of results. We believe data should drive decisions, and sustained behavioral change will ensure success. For more information, please visit www.greengenerationsolutions.com.
