FOR IMMEDIATE RELEASE

Green Generation Solutions, LLC Announces Michael Spilsbury as Contracting Specialist and Katya Marin as Controller

Green Generation Solutions, LLC is pleased to announce that Michael Spilsbury has joined the firm as Contracting Specialist. Michael has over 25 years of experience in building services in a variety of trades. As Contracting Specialist for Green Generation Solutions, Michael will manage pre-construction activities, including scope of work development and review; final contract pricing bid solicitation; review, and analysis; subcontractor/vendor identification and coordination; and assistant project management. "We are very pleased to have Michael join our team as our Contracting Specialist. His depth of experience in building trades and construction services will help GreenGen as we expand our business," said Brad Dockser, CEO.

Michael is a LEED Accredited Professional with advanced expertise in Building Design and Construction. He brings over 30 years of specialized construction experience with federal and state Mechanical HVAC-Electrical applications and installations. His talents and contributions are noted with such ventures as large self-sustaining hotel casinos, high rises, hospitals, medical office buildings, industrial parks to multi-family and single family housing communities.

Most recently, Michael was Senior Mechanical Estimator for the construction and development firm Foulger-Pratt in their Complete Mechanical & Electrical Solutions Division. He spent over ten years in Utah and Nevada working as a general contractor and broker-realtor. He spent 14 years prior to that working in practical estimation and the design-build field.

Michael has served two years as a sheet metal instructor and more recently as the 2014 Chairman of the Craft Training Committee for The Associated Builders and Contractors of Washington, DC Metro Chapter. Michael is an active member in the US Green Building Council Capital Region, Associated Builders and Contractors-Washington Metro Region, and the Washington DC Chapter of the Project Management Institute. He also holds the following certifications and licenses: LEED Accredited Professional; Building Design and Construction; National Center for Construction Education and Research- Sheet Metal; Construction Safety and Health/OSHA-30; Construction Safety and Health/OSHA-10; General Building Contractor – NV/UT; and Sheet Metal, Refrigeration, and Air Conditioning – NV.

Green Generation Solutions is also pleased to announce that Katya Marin has joined the firm as Controller. Katya has 15 years of experience working with small to mid-sized rapid growth companies, with unique experience and passion for establishing scalable infrastructure. Most recently she served as Head of Finance at Webs, Inc., now a Vistaprint company. In this role she helped oversee all accounting processes, helped establish and manage operations during a high growth period, and supported the successful acquisition and integration of Webs by Vistaprint. "Katya is a welcome addition to the GreenGen team as our Controller. Her background and experience will be of great benefit to us in supporting the company's accounting operations," said Brad Dockser.

Katya graduated magna cum laude with a philosophy degree from New York University.

ABOUT GREEN GENERATION SOLUTIONS, LLC

Green Generation Solutions is an established, growing building performance company that engineers and implements customized energy solutions aimed to improve the profitability of our client's facilities and their operations. We believe that every business can be more profitable by making energy decisions backed by comprehensive analysis, collaborative planning, and ongoing measurement of results. At GreenGen, we offer a wide array of services, including: high efficiency lighting retrofits, HVAC optimization, building commissioning, building envelope assessments, procurement, CHP system development, "smart building" systems, and data analytics.
